Motion passes.

II. Motion to Reformat Journal Citations

Based on discussions with the Publication Board, at the annual meeting in Baltimore I proposed that we consider a re-formatting change to the "Literature Cited" section of WSSA journal articles. With recent approval from the three journal Editors, I am now making a motion to the BOD to approve this re-formatting proposal. Below is an example of the re-formatting style.
Anderson JV, Horvath DP, Chao WS, Foley ME, Hernandez AG, Thimmapuram J, Liu L, Gong GL, Band M, Kim R, Mikel MA (2007) Characterization of an EST database for the perennial weed leafy spurge: an important resource for weed biology research. Weed Sci 55:193-203

My reasons for making this motion prior to the summer WSSA BOD meeting are to (1) give the board members time to think about the change, (2) provide time for questions and/or concerns, (3) not take up valuable meeting time with such discussions, and (4) to give Allen Press sufficient time to incorporate such re-formatting changes into FY14 journal issues.

Thank you,

James V. Anderson
Director of Publications-WSSA
